Overview of Denver Broncos Quarterbacks in 2017

The 2017 NFL season presented a complex scenario for the Denver Broncos at the quarterback position. Following the departure of legendary quarterback Peyton Manning, the team sought stability and growth through several options. The main contenders for the quarterback role included Trevor Siemian, Paxton Lynch, and Brock Osweiler, each bringing distinct skill sets and experience levels. The Broncos aimed to find a reliable leader under center to restore their offensive effectiveness. This section provides an introduction to the quarterbacks who competed for playing time and the context behind their roles during the season.

Trevor Siemian: Starting Quarterback Profile

Trevor Siemian emerged as the primary starting quarterback for the Denver Broncos in 2017. Originally drafted in the seventh round of the 2015 NFL

Draft, Siemian demonstrated resilience and adaptability in his early career years. In the 2017 season, he started the majority of the games and was tasked with managing the offense under head coach Vance Joseph. Siemian's style emphasized pocket passing, quick decision-making, and ball control, even though he faced criticism for inconsistency and turnovers. His leadership was pivotal in shaping the Broncos' offensive identity during a rebuilding phase.

Siemian's Playing Style and Strengths

Trevor Siemian exhibited a conservative approach with an emphasis on short to intermediate throws. His strengths included:

- Accurate passing on quick routes
- Effective game management under pressure
- Ability to extend plays with mobility
- Command of offensive reads

Despite limitations in deep ball accuracy and occasional decision errors, Siemian provided a stable starting quarterback option for the Broncos throughout 2017.
