Reading books in the game is essential for increasing various stats such as Knowledge, Guts, Proficiency, and more. Normally, reading books takes a set amount of in-game time, but with Speed Reader, this duration is cut down, allowing players to gain the benefits of books quicker and progress faster. This skill is particularly useful for players aiming to optimize their daily schedules, as Persona 5 Royal is a time-management-heavy game. Speed Reader effectively improves gameplay flow, enabling players to focus on other aspects like social interactions, dungeon crawling, and side quests.

Prerequisites for Unlocking Speed Reader

Before acquiring the Speed Reader skill, certain prerequisites must be met. This includes reaching specific ranks with certain confidants and ensuring the protagonist's level and stats are adequate. In Persona 5 Royal, Speed Reader is tied to the Temperance Confidant, represented by Sadayo Kawakami. Therefore, progressing Kawakami's Confidant rank is a primary requirement. Additionally, having a certain level of Knowledge or other stats can influence the ability to unlock this skill as it often requires passing specific dialogue checks or meeting in-game conditions.

Confidant Rank Requirements

The Temperance Confidant is the key to unlocking Speed Reader. Players need to reach Rank 5 with Sadayo Kawakami to obtain the Speed Reader skill. This involves interacting with her regularly, completing her requests, and advancing through her storyline. Each rank requires time investment and meeting conditions such as time of day and the protagonist's available stats.

Character Level and Stats

While not always mandatory, having a higher character level and improved Knowledge stat can facilitate smoother progression through Kawakami's confidant ranks. Higher Knowledge can unlock new dialogue options, making it easier to advance her confidant status.
