The areas of Downtown and the Financial District are pivotal in advancing the story while honing survival skills.

Downtown Exploration and Enemy Encounters

Downtown is characterized by tight urban spaces and abandoned vehicles that provide cover. Players should use stealth to navigate past or silently eliminate clickers and runners. The use of distractions, such as thrown objects, aids in bypassing large groups of enemies.

Financial District Challenges

The Financial District presents more complex enemy placements, including hunters. Players must balance aggressive tactics with stealth, using crafting to create explosives and shivs for silent takedowns. This area also introduces environmental puzzles that require careful observation and timing.
