Starting Area: The Enchanted Forest

The Enchanted Forest serves as the initial setting where players familiarize themselves with controls

and basic gameplay mechanics. This area features multiple interactive objects and minor puzzles designed to introduce the core concepts of exploration and item usage.

Collecting Essential Items

Upon entering the forest, players should thoroughly examine the surroundings to collect essential items that will be required for later puzzles. Key items include:

- Wooden Stick
- Herbal Potion
- Ancient Map Fragment
- Silver Key

These items are scattered across different parts of the forest and require solving simple puzzles such as moving rocks or finding hidden compartments.

- Note the sequence of symbols on tree trunks
- Match symbols to the gate panel
- Interact with the panel to unlock the gate

Successfully solving this puzzle allows progression to the next area, the Forgotten Village.

Exploring the Forgotten Village

Talking to Villagers

Engaging with the villagers provides critical hints and background information relevant to the mysteries of the Lost Lands. Dialogue options often reveal where to find hidden objects or how to solve upcoming puzzles.

Locating the Hidden Workshop

One of the most important locations in the village is the Hidden Workshop, where tools and artifacts can be repaired or combined. Access requires finding a secret entrance behind the town's well.

- Inspect the well for unusual markings
- Use the Wooden Stick to retrieve a latch key
- Unlock the workshop door

Inside, players can restore broken artifacts that will be instrumental in the Ancient Temple puzzles.

Light Reflection Puzzle

This puzzle involves directing beams of light using mirrors to activate seals on temple doors. Players must rotate mirrors to ensure the light reaches all seals simultaneously.

- Collect mirrors scattered across the temple chambers
- Place mirrors on designated stands
