Retirement Plan Contribution Limits for 2023

Retirement plans remain a cornerstone of employee benefit offerings, with contribution limits updated annually by the IRS to reflect inflation and economic changes. The **shrm 2023 benefit plan limits** include notable adjustments to 401(k), 403(b), and other qualified plan contribution ceilings, which directly affect both employer and employee contributions.

401(k), 403(b), and 457 Plan Limits

For the 2023 plan year, the elective deferral limit for employees participating in 401(k), 403(b), and governmental 457(b) plans has increased. Employees can now contribute up to \$22,500, up from \$20,500 in the previous year. This increase allows employees to save more pre-tax income for retirement, aligning with the rising cost of living. Additionally, the catch-up contribution limit for employees age 50 and over remains at \$7,500, permitting higher savings for those nearing retirement age.

Defined Contribution and Defined Benefit Plan Limits

The overall limit on annual additions to defined contribution plans, which includes employee and employer contributions combined, has also been adjusted. In 2023, this limit is set at \$66,000, up from \$61,000 in 2022. For defined benefit plans, the maximum annual benefit payable at retirement increased to \$265,000, reflecting cost-of-living adjustments. These thresholds ensure that retirement benefits remain substantial while adhering to tax code restrictions.

Key Takeaways for Retirement Plans

- Employee elective deferral limit increased to \$22,500 for 2023
- Catch-up contributions for those 50+ remain at \$7,500
- Total annual additions limit raised to \$66,000
- Defined benefit plan maximum annual payout increased to \$265,000

Health Savings Account (HSA) and Flexible Spending Account (FSA) Limits

The **shrm 2023 benefit plan limits** also encompass changes to Health Savings Accounts and Flexible Spending Accounts, which are popular tools for managing healthcare expenses pre-tax. These accounts have annual contribution limits and usage restrictions that impact employee financial planning and employer benefit administration.

Health Savings Account Contribution Limits

For individuals enrolled in high-deductible health plans (HDHPs), the IRS has adjusted the HSA contribution limits for 2023. The maximum contributions increased to \$3,850 for self-only coverage and \$7,750 for family coverage. These represent inflation-based increases that allow employees to allocate more funds toward medical expenses tax-free. The catch-up contribution for individuals age 55 and older remains at \$1,000.

Flexible Spending Account Limits

Flexible Spending Accounts, which allow employees to use pre-tax dollars for eligible health

expenses, have a maximum contribution limit of \$3,050 for 2023. This is a slight increase from previous years and helps employees plan for out-of-pocket medical costs effectively. It is important to note that dependent care FSAs maintain a limit of \$5,000 per household, unchanged for 2023.

Summary of Health-Related Plan Limits

- HSA contribution limits: \$3,850 (self-only), \$7,750 (family)
- HSA catch-up contribution: \$1,000 for age 55+
- Healthcare FSA contribution limit: \$3,050
- Dependent care FSA limit: \$5,000 per household

Other Key Benefit Plan Thresholds and Limits

Beyond retirement and health-related accounts, the **shrm 2023 benefit plan limits** include several other important thresholds that impact various types of employee benefits. These limits influence compensation structures, tax treatment, and compliance requirements.

Qualified Transportation Fringe Benefits

The IRS has set the monthly limit for qualified transportation benefits, such as transit passes and parking, at \$300 for 2023. Employers offering these benefits can continue to provide tax-advantaged transportation reimbursement up to this amount, helping reduce employees' commuting costs.

Health Flexible Spending Account Carryover Limits

Employers that offer FSAs may allow employees to carry over unused funds into the next plan year, subject to limits. For 2023, the carryover maximum remains at \$610, providing flexibility for employees to manage healthcare expenses without forfeiting unused balances.

Contribution Limits for SEP and SIMPLE IRAs

For self-employed individuals and small business owners, SEP IRAs allow contributions up to 25% of compensation or \$66,000, whichever is less, in 2023. SIMPLE IRA contribution limits increased to \$15,500, with a catch-up contribution of \$3,500 for participants aged 50 and above. These limits support retirement savings strategies in small business environments.

Summary of Additional 2023 Limits

- Qualified transportation fringe benefit limit: \$300/month
- Health FSA carryover limit: \$610
- SEP IRA contribution limit: up to \$66,000 or 25% of compensation
- SIMPLE IRA limit: \$15,500 with \$3,500 catch-up

Implications for Employers and HR Professionals

Awareness of the **shrm 2023 benefit plan limits** is essential for employers and HR professionals tasked with designing and managing employee benefit programs. These updated thresholds impact plan funding, employee engagement, compliance risk, and tax planning strategies. Employers must adjust benefit communications and payroll systems to reflect the new limits accurately and ensure that plans continue to meet regulatory requirements.

Plan Design and Compliance Considerations

Employers should review current benefit plans to confirm that contribution limits and benefit amounts comply with the 2023 thresholds. Failure to adhere to these limits can result in tax penalties or disqualification of tax-advantaged status. Adjusting plan parameters also allows organizations to remain competitive in attracting and retaining talent by offering maximized benefits within legal boundaries.

Employee Communication and Education

Clear communication about the 2023 benefit plan limits helps employees make informed decisions about their benefit elections. HR professionals should provide updated materials

that explain the new contribution caps, catch-up provisions, and carryover rules. Educational initiatives can promote optimal use of retirement savings vehicles and healthcare accounts, enhancing overall employee financial wellness.

Strategic Financial Planning

From a strategic perspective, understanding these limits allows organizations to forecast benefit-related expenses and tax implications more accurately. Employers can leverage these updates to create benefit plans that balance cost control with employee satisfaction. Additionally, higher limits provide opportunities to encourage greater employee savings and participation, contributing to long-term workforce stability.
