Major Historical Events on April 15

April 15 has been a witness to numerous defining historical events that have shaped the course of history. These events span political, social, and military domains and often mark turning points in different eras.

End of the American Civil War

On April 15, 1865, President Abraham Lincoln died after being shot the previous evening by John Wilkes Booth. This event came just days after the effective end of the American Civil War, with General Robert E. Lee's surrender at Appomattox Court House on April 9. Lincoln's assassination profoundly impacted the nation during the fragile post-war reconstruction period.

Formation of the Titanic Disaster

In 1912, the RMS Titanic sank in the early hours of April 15 after hitting an iceberg. This maritime tragedy resulted in the loss of over 1,500 lives and has remained one of the deadliest commercial peacetime maritime disasters in history. The sinking led to significant changes in maritime safety regulations worldwide.

Other Noteworthy Events

- 1632 - Galileo Galilei published his work "Dialogue Concerning the Two Chief World Systems."
- 1923 - Insulin became widely available for use in the treatment of diabetes.
- 1947 - Jackie Robinson broke Major League Baseball's color barrier by playing his first game for the Brooklyn Dodgers.

Notable Births on April 15

April 15 is also distinguished by the birth of several influential figures in various fields including politics, arts, science, and sports. These individuals have made lasting contributions to their respective areas.

Leonardo da Vinci (1452)

One of the most renowned polymaths of the Renaissance, Leonardo da Vinci was born on April 15, 1452. His work as an artist, scientist, engineer, and inventor has had a profound impact on both art and science. Da Vinci's masterpieces like the Mona Lisa and The Last Supper continue to captivate audiences worldwide.
