Overview of United Healthcare Community Plan Wisconsin

The United Healthcare Community Plan Wisconsin is a Medicaid managed care program designed to serve eligible individuals and families across the state. It aims to provide affordable healthcare coverage by partnering with Wisconsin's Medicaid program to offer a broad range of medical services. The plan emphasizes coordinated care, ensuring that members have access to primary care providers, specialists, hospitals, and pharmacies within a robust network. By leveraging UnitedHealthcare's extensive resources and experience, the community plan strives to improve health outcomes for vulnerable populations, including children, pregnant women, seniors, and individuals with disabilities.

Mission and Goals

The mission of the United Healthcare Community Plan Wisconsin is to enhance the health and well-being of its members through comprehensive healthcare coverage and support services. The plan focuses on delivering patient-centered care, emphasizing preventive measures, timely access to medical services, and managing chronic conditions effectively. Its goals include reducing healthcare disparities, improving quality of life, and ensuring members receive the appropriate care at the right

time.

Program Partnerships

United Healthcare Community Plan Wisconsin collaborates closely with the Wisconsin Department of Health Services (DHS) and other state agencies to administer Medicaid benefits efficiently. These partnerships help streamline enrollment, care coordination, and claims processing, ensuring members experience seamless healthcare access and support.

Coverage Options and Benefits

United Healthcare Community Plan Wisconsin offers a variety of coverage options catering to different demographics and health needs. These include Medicaid plans for low-income families, children's health insurance programs, and specialized plans for seniors and individuals with disabilities. The plan covers a wide range of medical services essential for maintaining health and managing illnesses.

Key Benefits Included

- Primary and specialty doctor visits
- Hospital and emergency care services
- Prescription drug coverage
- Mental health and substance use disorder treatment
- Maternity and newborn care
- Preventive and wellness services
- Vision and dental care for eligible members
- Transportation to medical appointments

These benefits ensure comprehensive coverage, helping members receive timely care without excessive out-of-pocket costs. The inclusion of behavioral health services and transportation assistance further supports holistic healthcare access.

Special Programs and Services

Beyond basic coverage, the plan offers special programs targeting chronic disease management, care coordination, and behavioral health support. These initiatives aim to improve long-term health outcomes and reduce hospital readmissions. Members can access care managers and health coaches who provide personalized guidance and resources.

Eligibility and Enrollment Process

Determining eligibility for the United Healthcare Community Plan Wisconsin depends on factors such as income level, age, disability status, and family composition. The plan primarily serves Medicaid-eligible individuals, including children, pregnant women, adults, and seniors meeting state-specific criteria.

Who Qualifies?

Eligibility criteria generally include:

- Residents of Wisconsin
- Individuals and families meeting income requirements aligned with Medicaid guidelines
- Children under 19 years of age
- Pregnant women during pregnancy and postpartum periods
- Seniors aged 65 and older
- People with disabilities who qualify for Medicaid benefits

Applicants must also provide necessary documentation such as proof of residency, income verification, and identification.

Enrollment Steps

Enrollment in the United Healthcare Community Plan Wisconsin involves several key steps:

1. Apply for Medicaid through the Wisconsin Department of Health Services or the ACCESS Wisconsin portal.
2. Once approved, select United Healthcare Community Plan as the Medicaid managed care provider.
3. Receive a welcome packet containing member ID cards and plan information.
4. Choose a primary care provider from the plan's network.
5. Begin accessing covered medical services immediately upon enrollment.

Support is available to assist applicants throughout the enrollment process, ensuring clarity and ease of access.

Provider Network and Access to Care

The United Healthcare Community Plan Wisconsin maintains an extensive network of healthcare providers to guarantee members have access to quality medical services throughout the state. The network includes primary care physicians, specialists, hospitals, clinics, pharmacies, and behavioral health providers.

Choosing a Primary Care Provider (PCP)

Members are encouraged to select a primary care provider to coordinate their healthcare needs effectively. The PCP serves as the first point of contact for medical concerns, preventive care, and referrals to specialists. Having a dedicated PCP promotes continuity of care and helps manage chronic conditions efficiently.

Specialist and Hospital Access

The plan's network offers broad access to specialists across various medical fields, including cardiology, orthopedics, mental health, and more. Members can obtain referrals through their PCP or directly access some specialist services depending on the plan's guidelines. Hospitals affiliated with the network provide inpatient and outpatient care, emergency services, and surgical procedures.

Pharmacy Services

Prescription drug coverage is a key component of the plan, with numerous in-network pharmacies available statewide. Members can fill prescriptions, receive medication counseling, and participate in medication management programs to optimize treatment outcomes.

Preventive Services and Wellness Programs

United Healthcare Community Plan Wisconsin places a strong emphasis on preventive care and wellness to improve overall health and reduce the incidence of chronic diseases. Members have access to a variety of preventive services covered at no additional cost.

Covered Preventive Services

- Immunizations and vaccinations
- Annual physical exams and health screenings
- Well-child visits and developmental assessments
- Breast and cervical cancer screenings

- Diabetes and high blood pressure monitoring
- Tobacco cessation programs

These services help detect health issues early and promote healthy lifestyle choices among members.

Health Education and Support

The plan offers educational resources and wellness programs designed to empower members in managing their health. Initiatives include nutrition counseling, weight management, chronic disease self-management workshops, and maternity support services. By fostering engagement and awareness, the plan supports healthier communities.

Customer Support and Resources

United Healthcare Community Plan Wisconsin provides comprehensive customer support to assist members with questions, claims, benefits, and provider access. Multiple channels are available to ensure members receive timely and accurate information.

Member Services

Dedicated member service representatives are available to help with enrollment inquiries, benefit explanations, and problem resolution. Support is offered via phone, mail, and sometimes in-person assistance centers. The representatives also provide guidance on utilizing plan benefits effectively.

Online Tools and Resources

Members can access online portals to view their health records, check claims status, find providers, and manage appointments. These digital tools enhance convenience and enable members to take an active role in their healthcare management.

Community Outreach

The plan participates in community outreach efforts to promote health education, preventive care, and access to services among underserved populations. These programs help address social determinants of health and improve overall community well-being.
